I am a motivated .NET developer with practical experience in building and maintaining web applications using C#, ASP.NET Core, Web Api's and related technologies. My background in Computer Science (IT), combined with real-world project experience, has equipped me with a solid foundation in software development and a passion for creating efficient and scalable solutions.

EXPERIENCE

OCTOBER 2023 – NOW
DOTNET DEVELOPER, HUBOWEB

Develop backend code of websites and API's, discuss business logics within the team and guide the frontend team with backend code's documentation.

Patient Utility

Test if the folder is Zip, then Unzip it and search file within folder for txt file then read the patient data and store it on SQL Table.

AuditApp

It uses asymmetric encryption to authenticate the user then the API has different actions for different controllers. It uses dependency injections to fulfil the requirement as services are created for each action. We use code first approach in this Web app

DOTNET INTERNSHIP, SOFTCONSULT

Develop Web forms, Win forms, SQL Stored Procedures, backend code to bind the data using data annotations and discuss business logics within the team of senior developers to guide the frontend team with backend code's documentation.

APRIL 2023 – AUGUST 2023
E_DASTERKHWAN APP, FYP

It was developed in Flutter (Dart). Basic motive is to circulate food to everyone. This project aims to address the problem of food waste in low-income communities by implementing a food waste management plan that includes source reduction, food donation, and community composting. E-Dastarkhawan mobile application specially developed based on requirements gathered from Lahore restaurants and Dastarkhawan for needy people so remaining food to be used.

EDUCATION

BS HONS OF IT, UNIVERSITY OF GUJRAT

I undertook coursework that provided a strong foundation in software development principles, algorithms, and data structures, gaining comprehensive knowledge in information technology and its applications

SKILLS

- OOPs concepts
- Programing Fundamental
- C# basics
- Java basics
- Spring MVC
- SQL Queries writing
- Database design and Database management
- React Js/ Node Js

- Web technologies
- ASP. Net MVC
- Entity Framework Core
- ASP. Net Core Web Api's
- WinForms, WebForm
- ADO. Net
- Angular 7
- Documentation

Languages

English (Professional proficiency)
Urdu (Native proficiency)

Interest

- Programing personal projects, Technology related meetups with friends, Willingness to collaborate with others.
- Provide constructive feedback and suggestions for improving processes and workflows.
- Be open to feedback and continuously strive to improve skills and performance.
- physical co-curricular activities.
